(Washington, DC Feb. 15, 2016)— [CxEnergy 2016](#) will once again draw hundreds of the nation's leading professional design engineers, commissioning experts, energy management professionals, test and balance specialists, facility managers and building owners to the only industry event dedicated to commercial building commissioning and energy management.

The event's host city, Dallas, is playing a prominent role in the event with several local and state organizations lending their support. Supporting organizations include the Texas Chapter of the United States Green Building Council, The Illuminating Engineering Society Fort Worth Section, Dallas 2030 District, South-central Partnership for Energy Efficiency as a Resource, The Continental Automated Buildings Association, The Business Council for Sustainable Energy and The Institute for Market Transformation.

Cx Energy's 32 educational sessions focus on key topics including commissioning case studies in education, health care, datacenters, and food service; building envelope; energy storage; LED lighting; controls & automation; test & balance; updates on ANSI & ASHRAE standards; and more. The speakers represent companies and organizations including Siemens, ENERGY STAR®, Google, Jacobs Engineering, Navigant, Schneider Electric, Trane and more. For the full technical program line-up, [visit this page](#).

CxEnergy's Expo Hall showcases a wide variety of companies providing leading-edge commissioning and energy management products and services. Exhibitors' products include controls, instruments and metering devices as well as consultative services in engineering and enterprise energy management. Sponsors and Exhibitors include Siemens, Rheem Manufacturing, 3M, Dwyer Instruments, ARCOM Masterspec®, Sebesta, RMF Engineering, Smith Seckman Reid, and more. Event information and the latest updates and online registration are available at www.CxEnergy.com

CxEnergy offers pre- and post-conference certification workshops and seminars for [Certified Commissioning Authority \(CxA\)](#) and [Energy Management Professional \(EMP\)](#). The event also features several networking events that connect commissioning and energy management personnel, engineers, building owners and facility managers with manufacturers and energy services providers. CxEnergy is presented by the AABC Commissioning Group ([ACG](#)), Associated Air Balance Council ([AABC](#)), and Energy Management Association ([EMA](#)).
