(Washington, D.C., March 5, 2018)—The [Energy Management Association](#) (EMA) will conduct a seminar and exam for its Energy Management Professional Certification (EMP) on April 23-24, 2018 in Las Vegas, NV in conjunction with the [CxEnergy](#) 2018 Conference & Expo.

The EMP provides a complete framework for a commissioning-based, energy management process that achieves maximum energy efficiency and optimum building performance. The day-and-a-half EMP Seminar is followed by a four-hour exam for certification. Candidates may enroll for the seminar or exam only or both the Seminar & Exam.

The EMP Certification has been aligned to conform to the requirements of the ANSI/DOE Better Buildings® Workforce Guidelines in order to obtain formal recognition in the program, which is expected within the next two months.

CxEnergy is the premier event for building energy management and commissioning. Its [technical program](#) provides AIA continuing education credits for the EMP, CxA, LEED and other certifications. Attendees of the EMP Seminar will earn 12 AIA LU continuing education credits.
