

## TLC Engineering for Architecture is CxEnergy Gold Sponsor

Presenting on “The Interdependence of MEP and Envelope Commissioning” &  
“Is an Audit & Retro-Cx an Rx for Energy Savings?”

### For Immediate Release

Contact: Ed Armstrong (202) 737-7775, [ed@commissioning.org](mailto:ed@commissioning.org)

(Washington, D.C., December 5, 2018) CxEnergy, the only conference and expo dedicated exclusively to building commissioning and energy management, announced today that TLC Engineering for Architecture will be a Gold Sponsor at the event. The company will also be an exhibitor (booth #208).

TLC Engineering for Architecture Principal and Director of Energy Services Mark Gelfo, P.E., CxA, EMP, LEED Fellow will present on the topic of “The Whole is Greater than the Sum of its Parts: The Interdependence of MEP and Envelope Commissioning,” alongside Darek Brandt, P.E., Intertek/PSI. This presentation will discuss Building Enclosure Commissioning (BECx), and how it synergizes with mechanical, electrical, and plumbing systems to benefit building owners.

“CxEnergy is hands down the best conference I’ve been to in my career, no doubt about it!” Gelfo said in anticipation of CxEnergy 2019 and its focus on commissioning and energy management programming.

Gelfo will be joined on the technical program by his TLC colleague Al LaPera, CxA, EMP, with a presentation entitled “Is an Audit & Retro-Cx an Rx for Energy Savings?” Nick Dalesandro, P.E., Depository Trust Clearing Corporation (DTCC) will co-present. “CxEnergy is the perfect place for a presentation like this,” said LaPera. “It is a forum where building engineers and owners’ representatives share perspectives on projects.”

CxEnergy 2019 is being held April 15-18 at the Caribe Royale Hotel in Orlando, FL. Attendees will earn AIA and other industry certification continuing education credits for presentations that include case studies and topics in water treatment planning for disease prevention, using data analytics for streamlining the commissioning process, cybersecurity for energy managers, implementing campus sustainability and energy plans, a variety of commissioning and energy management case studies, and more. The [CxEnergy Expo Hall](#) showcases a wide variety of products including controls, software, instruments, metering devices and services targeted specifically to commissioning, energy management, engineering and testing firms.

CxEnergy offers pre-conference workshops and seminars for AABC Testing & Balancing and Building Enclosure Commissioning, and certification exams for Certified Commissioning Authority (CxA) and Energy Management Professional (EMP). The event also features several networking events that connect commissioning providers, energy managers, MEP engineers, and HVAC testing professionals with manufacturers and building and facility owners/operators. Attendee registration and event information updates are available at [www.CxEnergy.com](http://www.CxEnergy.com)

CxEnergy is presented by the AABC Commissioning Group ([ACG](#)), Associated Air Balance Council ([AABC](#)), and Energy Management Association ([EMA](#)).
