(Washington, D.C., March 12, 2019) CxEnergy, the only conference and expo dedicated exclusively to building commissioning and energy management, announced today that [TMCx Solutions, LLC](#) will be a Gold Sponsor at the event.

Las Vegas, NV based TMCx Solutions, LLC was founded with a special purpose; to apply real world engineering based, problem solving skills into a new field called building commissioning. The early adoption of this quality assurance process that has become “business as usual” for a huge percentage of buildings constructed in the past two decades, set TMCx into an influential role as to what the commissioning process is today. TMCx blends their problem-solving expertise and a collaborative management approach, into the basic quality assurance process provided by commissioning. The natural outcome of this blend is a consistent turnover of successful buildings.

CxEnergy 2019 is being held April 15-18 at the Caribe Royale Hotel in Orlando, FL. Attendees will earn AIA and other industry certification continuing education credits for presentations that range from cyber security to water audits, along with a wide variety of commissioning and energy management case studies. [Click here to view the CxEnergy Preliminary Conference Program.](#)

The [CxEnergy Expo Hall](#) showcases a wide variety of products including controls, software, instruments, metering devices and services targeted specifically to commissioning, energy management, engineering and testing firms.

CxEnergy offers pre-conference workshops and seminars for AABC Testing & Balancing and Building Enclosure Commissioning, and certification exams for Certified Commissioning Authority (CxA) and Energy Management Professional (EMP). The event also features several networking events that connect commissioning providers, energy managers, MEP engineers, and HVAC testing professionals with manufacturers and building and facility owners/operators. Attendee registration and event information updates are available at www.CxEnergy.com

CxEnergy is presented by the AABC Commissioning Group ([ACG](#)), Associated Air Balance Council ([AABC](#)), and Energy Management Association ([EMA](#)).
